Why Invest in Birmingham

Birmingham's economy currently stands in excess of £120 Billion, and is growing at a higher rate than any other city in the UK. It holds the accolade of the UK's second city after the Capital, which is reflected across the board within the cities key performance statistics. Birmingham has been voted the best regional city in the UK to live in, with the cost of living approximately 60% lower than London. Many corporates have recognised the value and have already relocated to Birmingham. The property market is growing at an exponential rate, fuelled by the influx of major corporations and the growing deficit of housing supply. Birmingham simply does not have enough residences to meet the occupier demand
