Balcony/terrace

Chalet Cheval is located in the upmarket residential area of Les Brigues, just 150 metres from the slopes and a three-minute drive from the resort centre. Designed with families in mind, this 680m² chalet is light and spacious with plenty of high-end amenities. Set over four levels, the chalet blends traditional Savoyard architecture with clean-lined, modern interiors and is able to accommodate 20 guests across eight suites.

Located on the ground floor is the main living area with a striking central fireplace and access to a balcony and fabulous terrace with seating surrounding a firepit. On the other side of the terrace is an elegant dining room and reading corner. The fully-fitted kitchen and breakfast table provide further space to enjoy meals together.

On the lower ground floor is a fantastic relaxation area, set around an indoor pool. There is also a steam room and sauna, a spacious fitness and yoga room and a massage room too. Completing the wellness facilities is an outdoor hot tub plus a barrel sauna on the terrace. Children in the group have their own playroom whilst older members of the group can enjoy movie nights in the home cinema.

Chalet Cheval has eight bedrooms to choose from, all with en-suite facilities and TVs. The master bedroom, on the top floor, has its own balcony. There are a further six double bedrooms and a family suite with a king-size bed and children's bunk beds. Other facilities include a chic ski room with heated boot warmers, a laundry room and a garage.
